

## Collaborative Conversations with Families to Advance the Clinical Care of Children with Medical Complexities and Disabilities

### What is the C6?

Collaborative Conversations with Families to Advance the Clinical Care of Children with Medical Complexities (CMC) and Disabilities is a 10-part seminar series that builds on an international prioritization study, completed in 2020, designed to highlight key clinical research questions for the care of children with neurodisability and medical complexity.

The leadership includes complex care pediatricians Dr. Eyal Cohen and Dr. Catherine Diskin from the Hospital for Sick Children (SickKids) in Toronto, Canada and Dr. Rishi Agrawal from Lurie Children's Hospital of Chicago as well as [Family Voices](#) representatives Nora Wells, Cara Coleman and Kate Robinson.

### Seminar Schedule

Each one-hour seminar is hosted on Zoom and will include a panel of national experts, both clinical and caregiver. Seminars will begin with an overview of the topic and a conversation on shared-decision making in pediatric complex care. The goal is to build a community of practice. Attendees are encouraged to ask questions, share learnings and engage with the panel.

C6 is operated by SickKids in partnership with Family Voices and funded by the Lucile Packard Foundation for Children's Health. This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Northwestern University Feinberg School of Medicine and University of Toronto/Sick Kids Hospital. The Northwestern University Feinberg School of Medicine is accredited by the ACCME to provide continuing medical education for physicians.
