

ADVANCING INTEGRATED HEALTHCARE

Welcome

Improving Child Health in RI

Patricia Flanagan, MD, FAAP, PCMH Kids Co-chair
Elizabeth Lange, MD, FAAP, PCMH Kids Co-chair

Improving Child Health in RI Meeting | February 2, 2023

Care Transformation Collaborative of RI

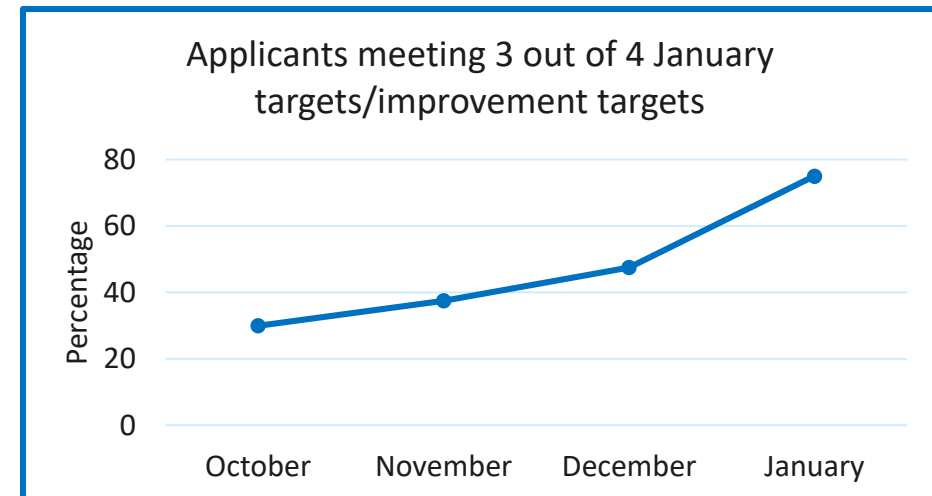

Agenda

Topic Presenter(s)	Duration
Welcome & Opening Remarks <i>Pat Flanagan, MD, FAAP and Beth Lange, MD, FAAP – PCMH Kids Co-chairs</i>	5 minutes
Medicaid Pediatric Healthcare Recovery Program Update <i>Pat Flanagan, MD, FAAP and Beth Lange, MD, FAAP – PCMH Kids Co-chairs</i>	15 minutes
KIDSNET Reports <i>Janet Limoges, RIDOH KIDSNET</i>	15 minutes
Update from Lead Program <i>Lori Clark, RIDOH Lead Program</i>	10 minutes
What Parents Say about Vaccinations <i>Stephanie Trafka, RIPIN</i>	15 minutes

Status Update – Data

- 75% of applicants met the targets/improvement targets for at least 3 out of 4 measures in January
- Payments for qualifying applicants should be received by February 13th
- Applicants that did not meet the targets/improvement targets are still eligible to participate in subsequent quarters (April, July & October)
- Practice Facilitators are here to help

% Screening Rates over time for Y2 MPHRP participants				
	October	November	December	January
K Readiness	81.7	82.4	83.1	86.6
7 th G Readiness	63.6	64.9	66.2	68.0
1 lead	82.4	82.4	82.8	83.6
2 lead	56.0	56.3	56.4	57.6

How has this improved children's health in RI

- [RI is #1 in Flu and COVID vaccinations](#) in the nation
- ~12K Kindergarten and 7th Graders are immunized by practices participating in this program
- ~6K 2 year olds have received 1 lead screen by practices participating in this program
- ~4K 3 year olds have received 2 lead screens by practices participating in this program

Status Update – Behavioral Health ECHO

Practices must attend at least **4 out of 6 ECHO® Learning Sessions** for psychosocial and behavioral health assessment/intervention to receive July payment. **Completed evaluation is required to receive credit for attendance** and CMEs. CME credits are available for MDs, PAs, RNs, NPs, Rx, PsyD, and PhDs.

DISCUSSION

- Participant question around requiring vaccinations as a condition of being a patient of the practice?

KIDSNET Reports by Janet Limoges

THANK YOU KIDSNET Team for your heroic efforts!!

[Instructions for NEW KIDSNET report - Preventive Healthcare Measures Report Instructions](#)

Update from RIDOH Lead Program

THANK YOU RIDOH Lead Program for your heroic efforts!!

What information should practices send in for results to be entered into KIDSNET

- Analysis Lab
- Last and First Name
- DOB
- Gender
- Full Address include (Apt, unit, floor) city, zip and state (Do not use 101 Friendship St. address)
- Working phone number
- Guardian name
- Language
- Physician (ordering test)
- Draw date
- Test date (date tested at lab)
- Test Method
- PB level (lead level)

Update from RIDOH Lead Program

What should practices expect - Communication

- When there is incomplete information submitted for data entry, what happens?
 - The lead program will call or fax the practice to follow-up
- What should practices do if they do not have all the data elements needed for data entry?
 - This record will not be able to be entered into KIDSNET until this information is obtained
 - For tests completed out-of-state, the lead program will attempt to assist in obtaining this information. (CLPPP system communication)
 - Practices can also reach out to request additional information from the DOH in the state where testing occurred
 - Testing may potentially need to be re-done
- When are complete records expected to appear in KIDSNET?
 - Four (4) business days from the test date or receipt of data from practice
- Who should I contact with questions?
 - Lori Clark - Phone: (401) 222-7681, Email: Lori.Clark@health.ri.gov

Update from RIDOH Lead Program

What response is there from the lead program when there is an elevated lead level?

For lead levels

- Between 5 – 9.9 µg/dL: A home visit is offered and lead mitigation visit (voluntary)
- Above 10 µg/dL: – A home visit is offered and comprehensive RIDOH inspection (voluntary)

Family Education

- Inspection findings
- Lead exposure prevention
- Communication with landlord

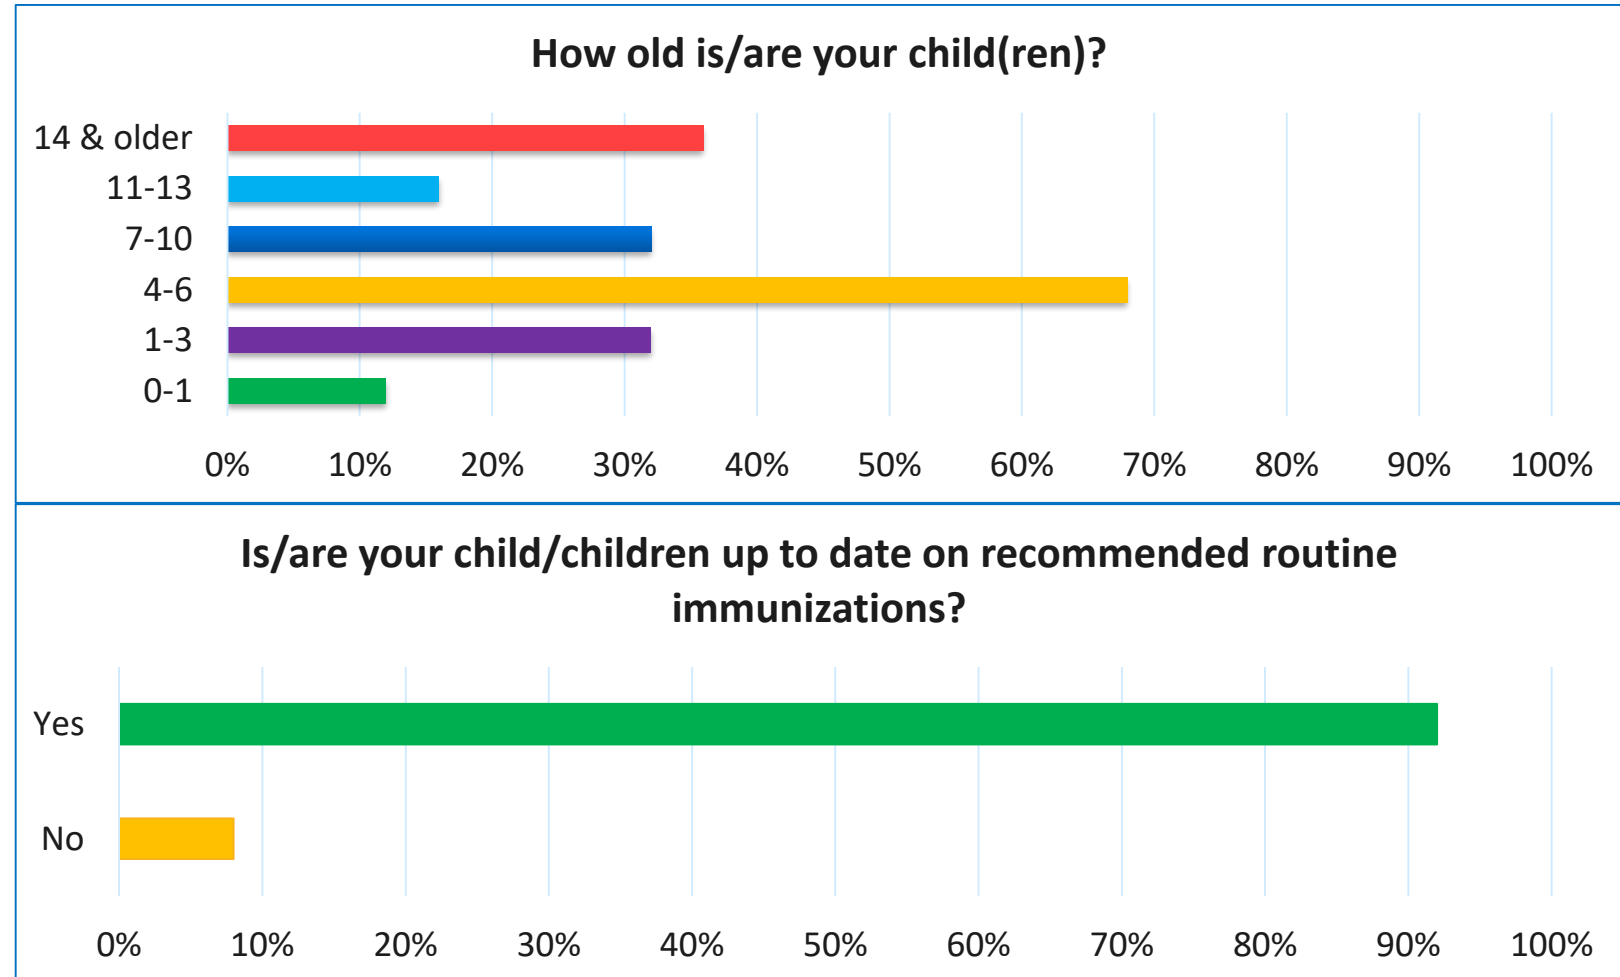

Note: Practices cannot refer to St. Josephs lead center unless screening result is >20 µg/dL

What Parents Say about Vaccinations

Survey reach:

- RIPIN Family Voices
- RIPIN Early Childhood
- Family Visiting Programs
- HEZ Programs
- Governor’s Commission on Childcare Committees

What Parents Say about Vaccinations

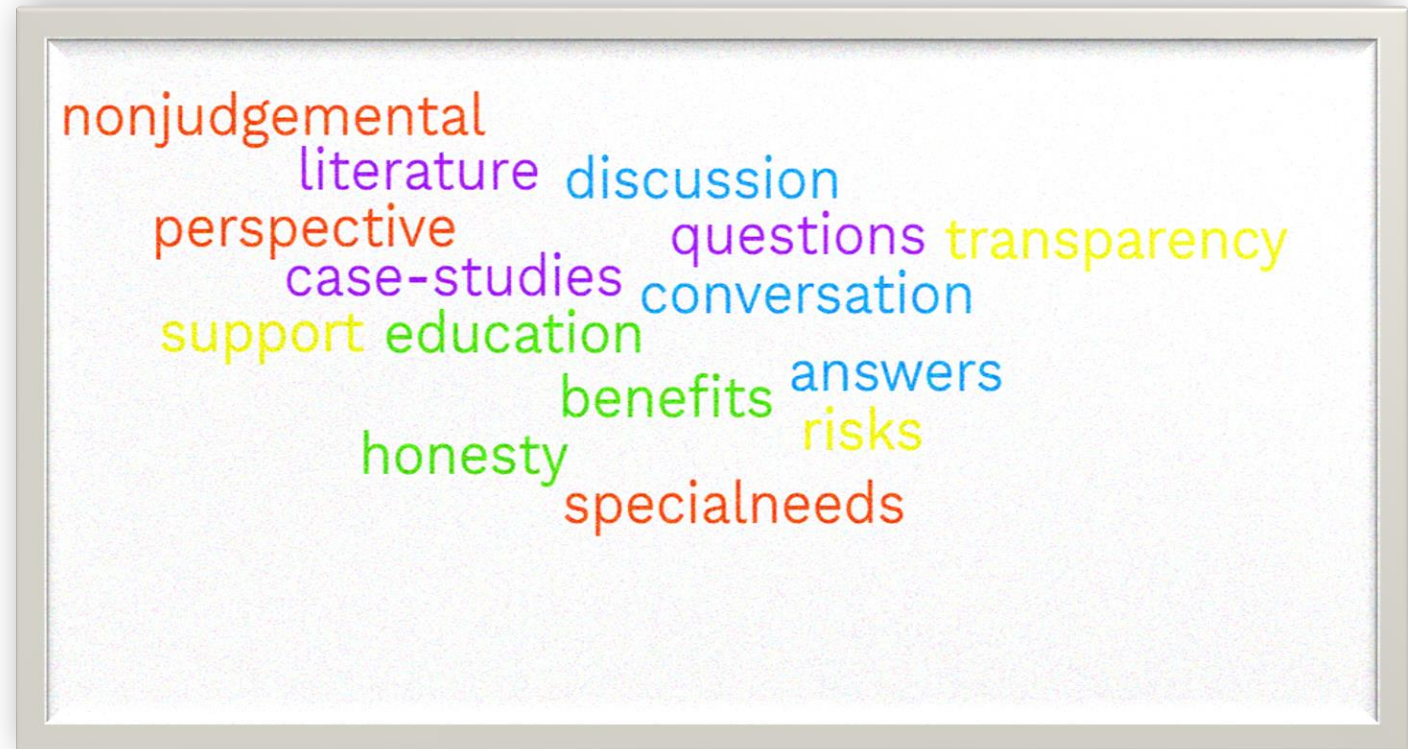

What influenced your decision to follow a delayed or modified immunization schedule?

“My son had a modified schedule due to a cancer diagnosis and treatment”

What Parents Say about Vaccinations

Here's what we heard that parents found helpful:

- Respectful conversations
- Answering questions
- Detailed Information/Literature
- Benefits vs. Risks
- Consideration of Special Healthcare Needs
- Cultural Competency & Sensitivity

What are Parents Saying about Vaccinations?

Here's some feedback we received from families on how pediatricians could better support them:

- “Providing case studies with positive outcomes for parents who may be hesitant.”
- “Take more time to listen to parents’ concerns, especially when dealing with children with special needs.”
- “Being open to discussing different views and providing valid, concrete information.”

What Parents Say about Vaccinations

DISCUSSION

Thank You EOHHS for your financial support
