

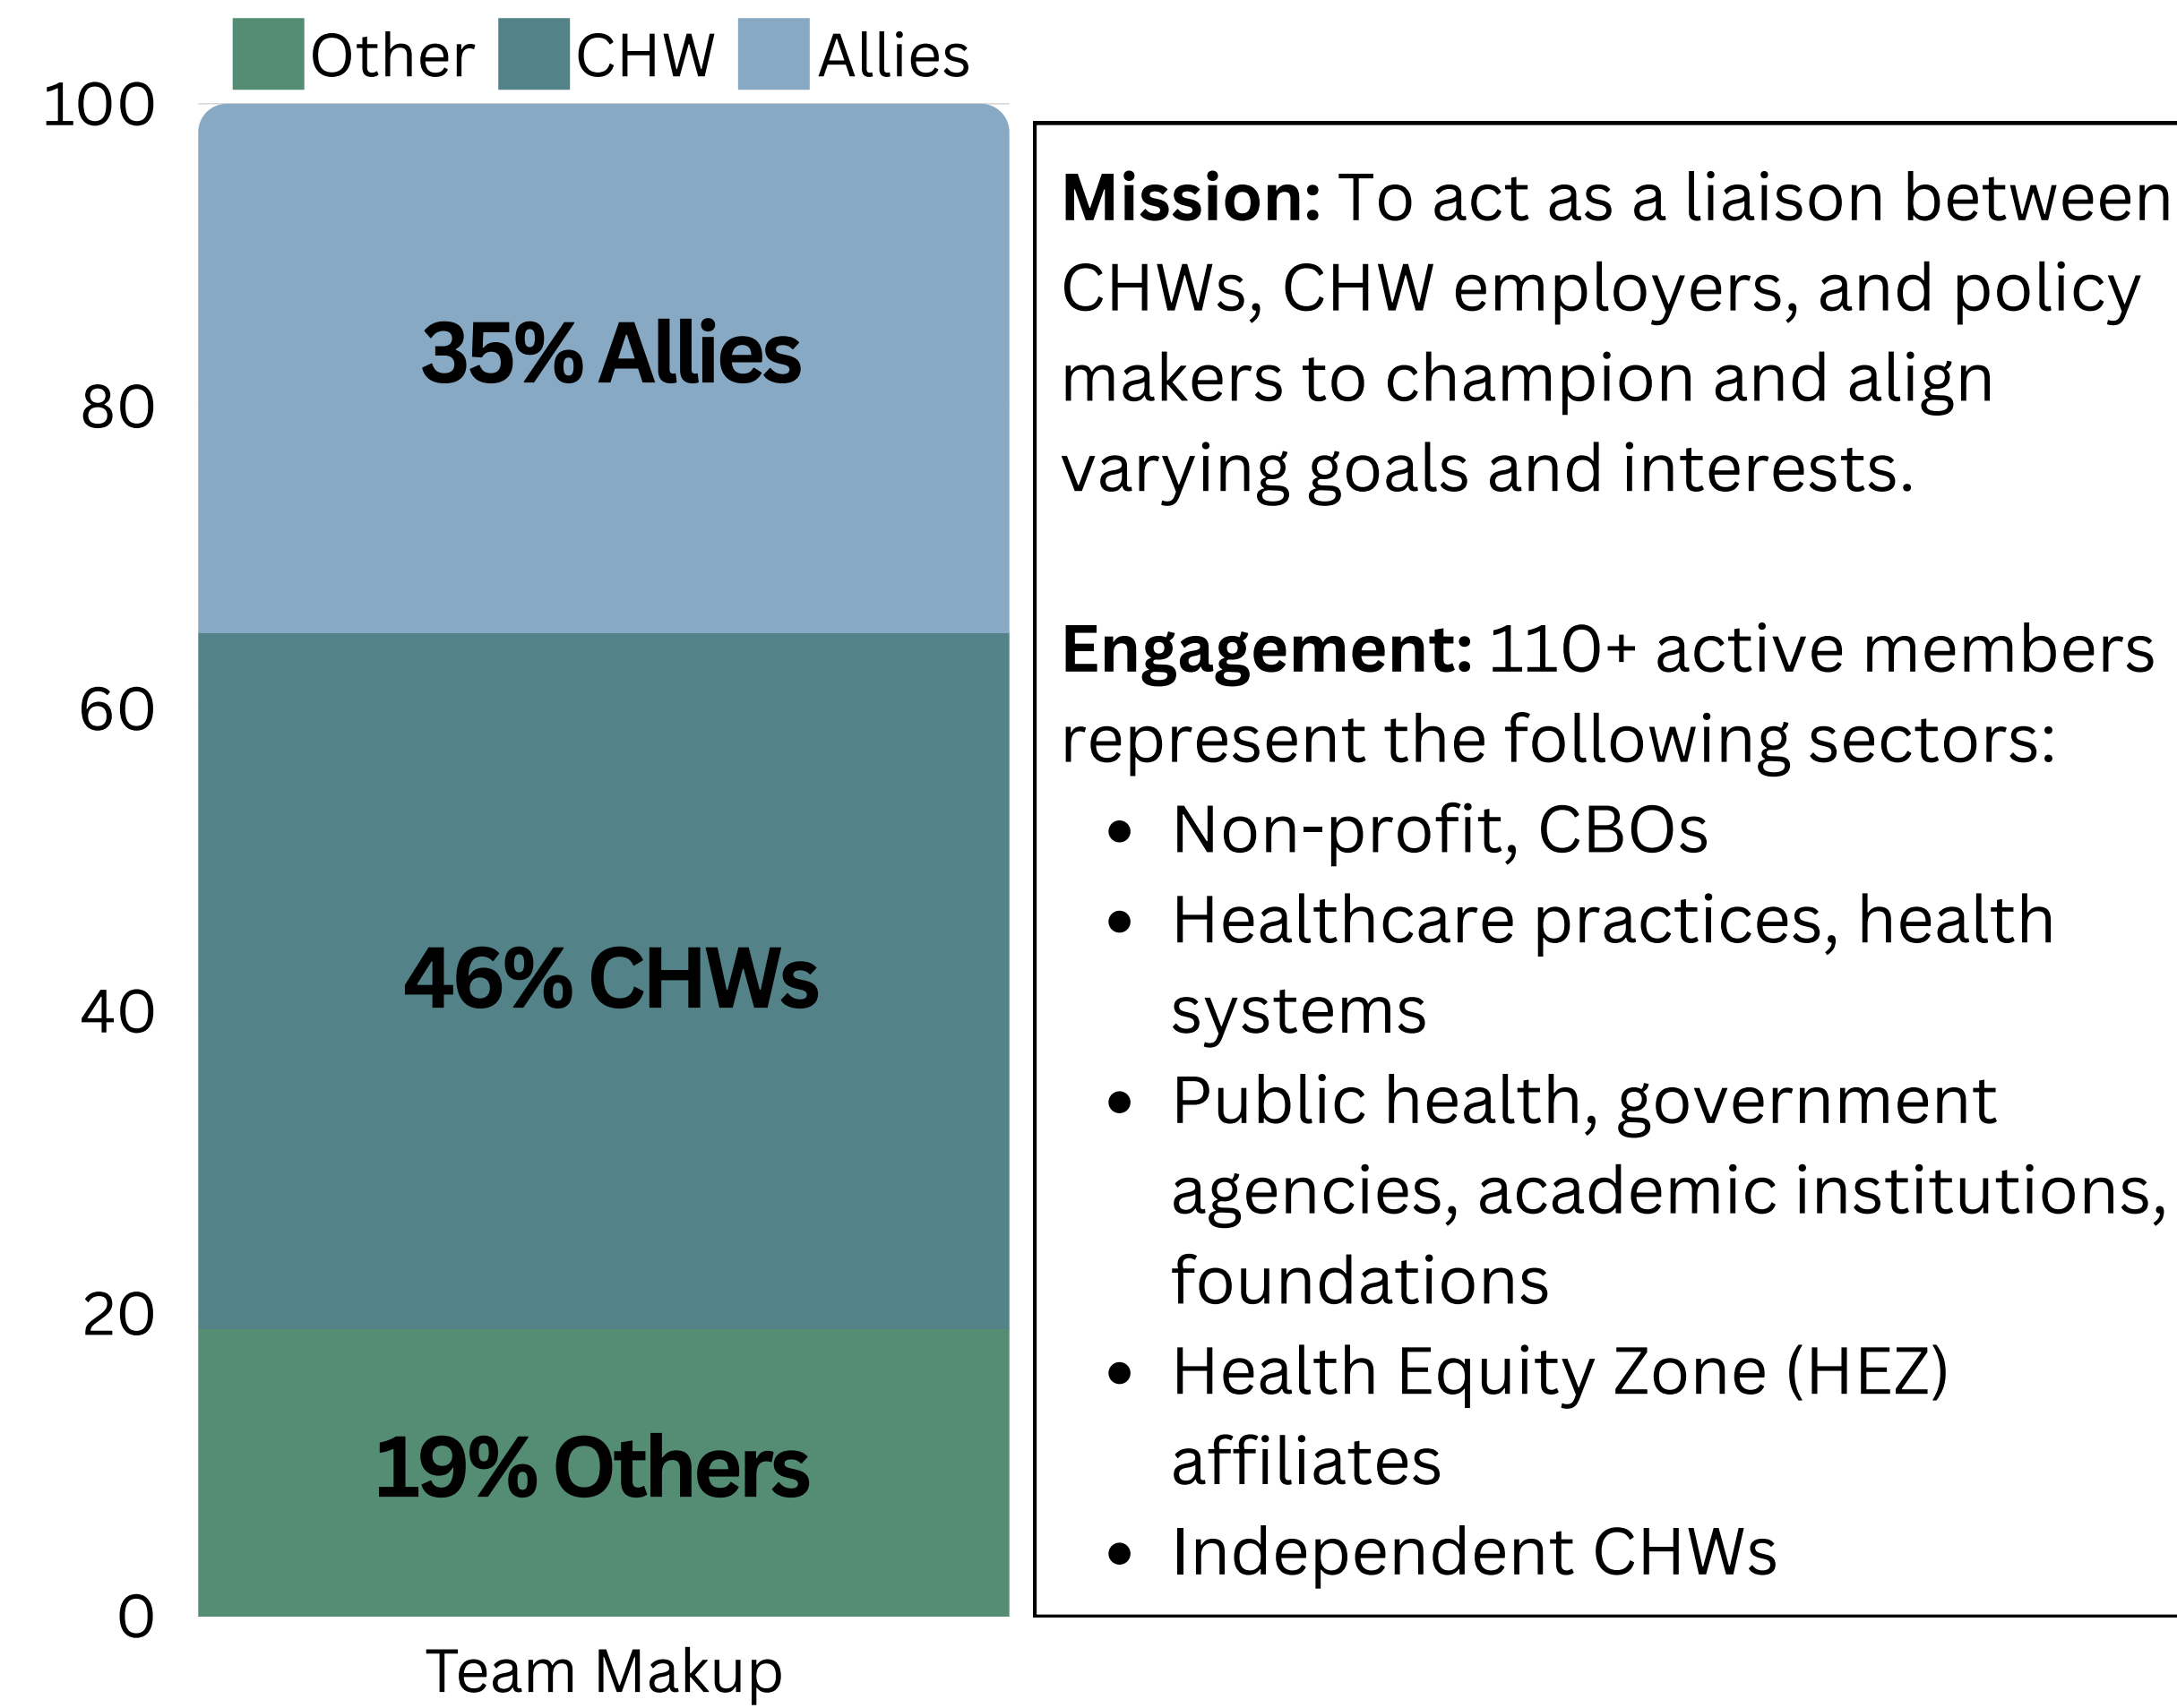

Charting a Roadmap for Community Health Workers (CHWs) in Rhode Island

“What can we do together that we cannot do alone?”

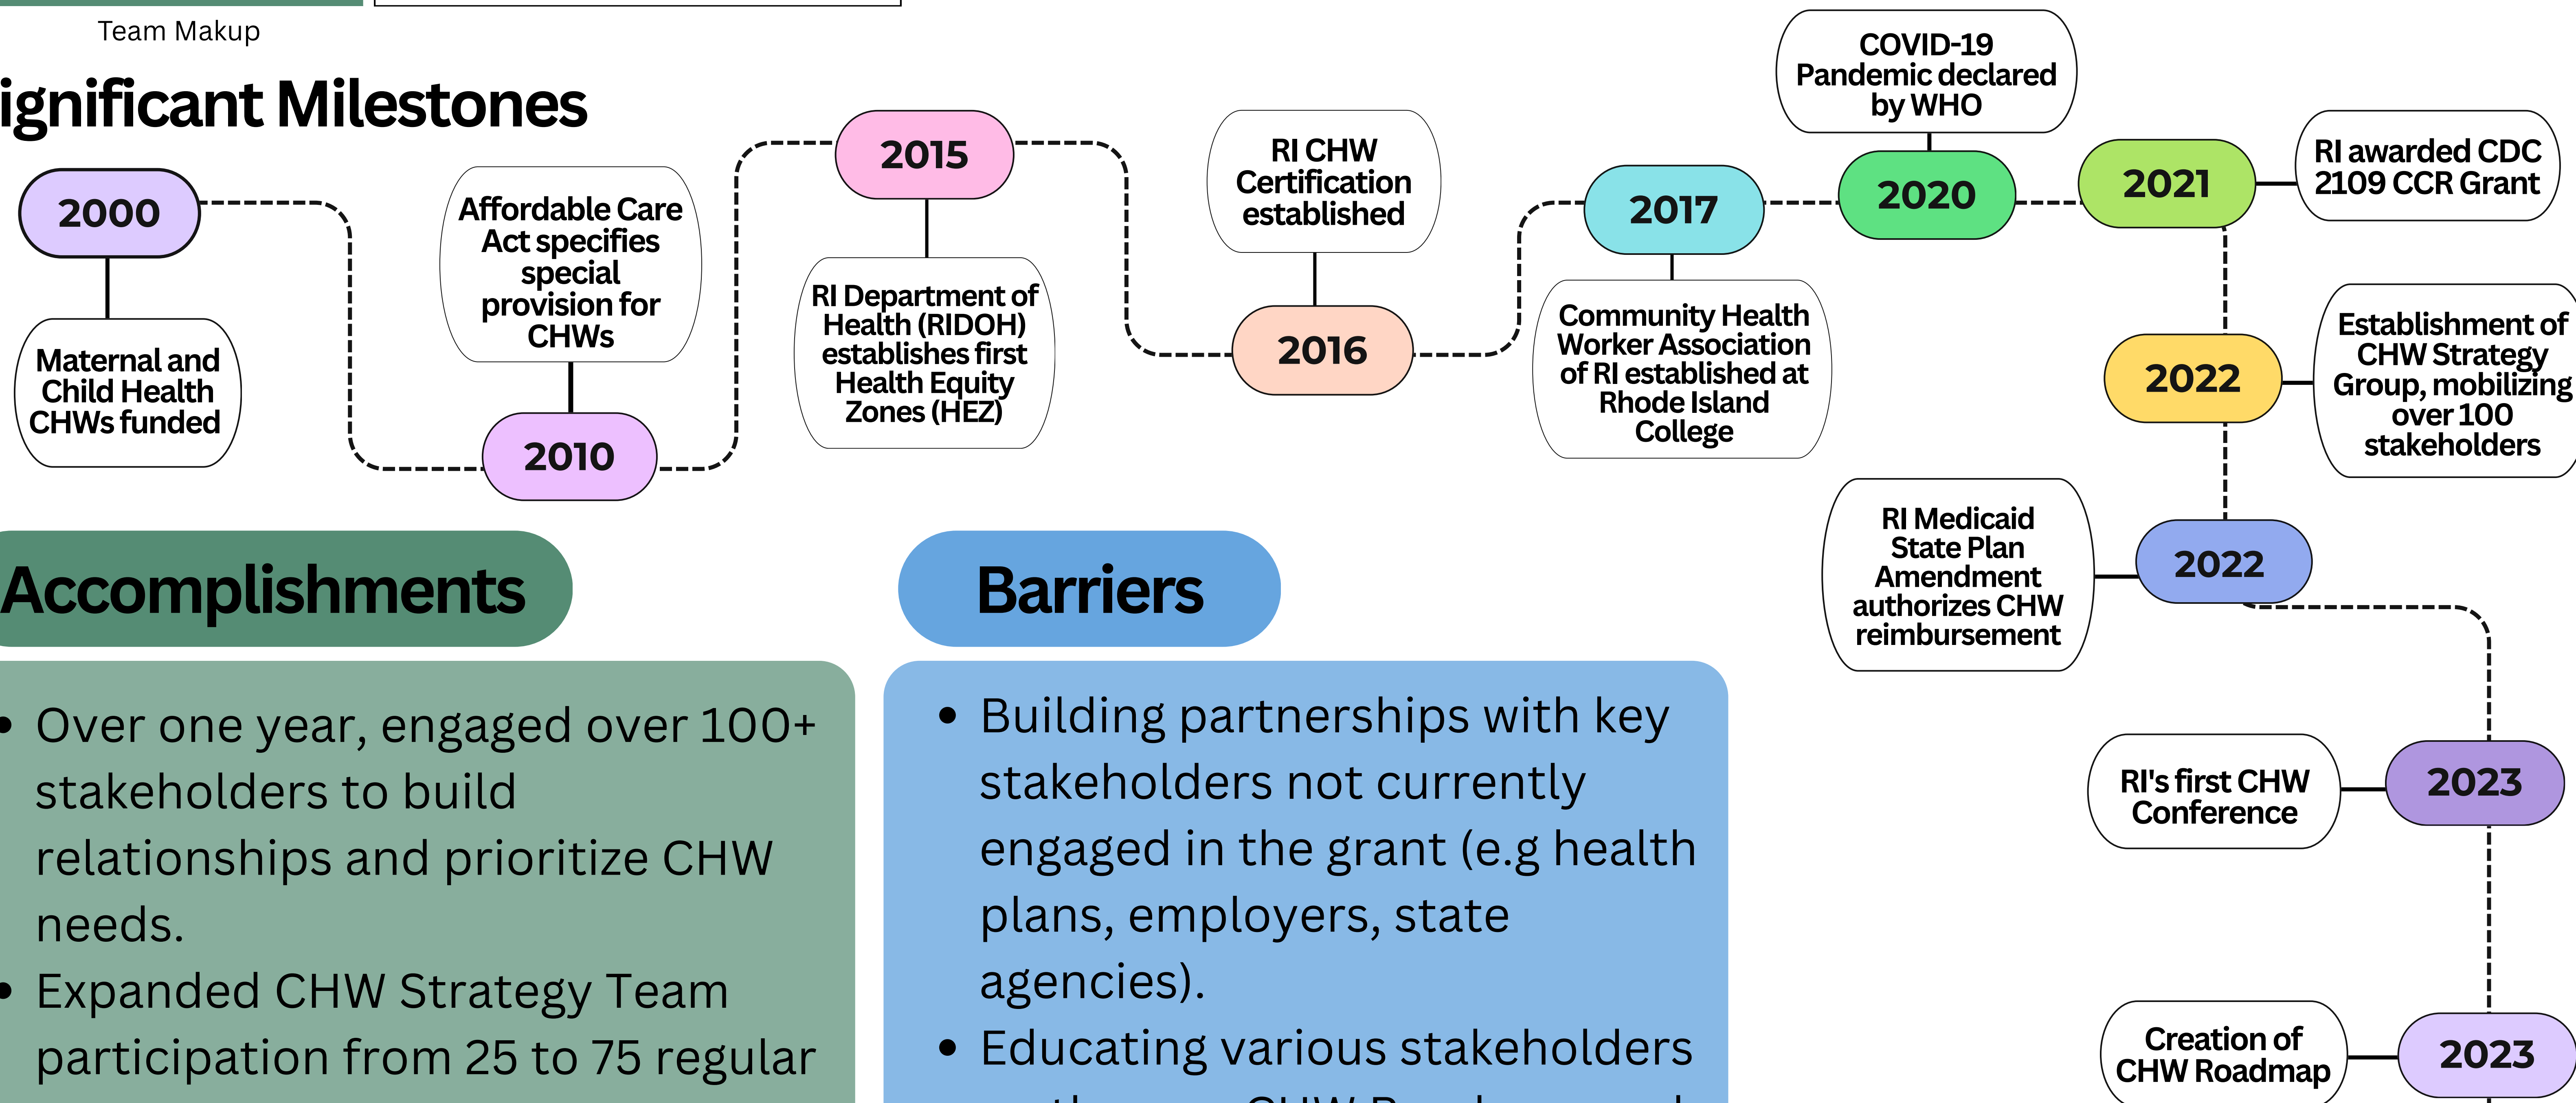

Authors:
RIDOH CHW Program
RI CHW Strategy Team

Funding for supporting content on this poster was made possible by the Centers for Disease Control and Prevention (CDC) grant, Community Health Workers for COVID Response and Resilient Communities (CDC-RFA-DP21-2109). The views expressed in written materials or publications do not necessarily reflect the official policies of the Department of Health and Human Services, nor does the mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government.

CHW Strategy Team

Significant Milestones

Accomplishments

- Over one year, engaged over 100+ stakeholders to build relationships and prioritize CHW needs.
- Expanded CHW Strategy Team participation from 25 to 75 regular attendees, with 50% CHW representation.
- Published a 3–5 year statewide CHW Roadmap to move from conversations to united efforts.
- Built four active CHW Roadmap Implementation teams addressing multiple milestones.

Barriers

- Building partnerships with key stakeholders not currently engaged in the grant (e.g health plans, employers, state agencies).
- Educating various stakeholders on the new CHW Roadmap and milestones in accessible ways.
- Short-term federal grant dollars, leading to instability of partners.
- CHWs getting permission and compensation to participate in their “upstream” roles.
