

Improve PCP-Specialist Collaboration

Proposed focus for 2021-2022 (from 2021-2022 CSC planning document)

I. Summit meeting with CTC, SOC, Health Plans, State partners, RI Medical Society, and primary care and specialist state chapters to agree on statewide principles for primary care-specialist communication and coordination. If agree – when?

II. E-consult Collaborative (proposed for fall)*:

- Seed funding available for core program up to three SOC
- Additional funding required for more ambitious program that would include practice level funding for participation

* Need planning subgroup
