

# Recruiting for a patient study:

## \$50 gift card for participating!

### **Are you eligible?**

If you are: over 18 years old, and have received some substance use or mental health counseling (“behavioral health care”) through your primary care provider location

**you’re eligible to participate.**

### **What are we discussing?**

We want to hear how patients experience integrated behavioral healthcare – that is counseling or treatment received at your primary care practice. We want to understand what is going well, and what could be improved from a patient’s perspective.

By participating, you would be agreeing to share your experiences with our researcher, and all information will be kept private.

Your health care provider is not involved in the study, and participation will not impact your care. This is a research study being conducted by Brown University.

Protocol #: 2101002898

### **What is the compensation?**

We will be providing \$50 in compensation for participation in the form of a gift card.

### **How can you sign up to participate?**

If you would like to participate, you can contact the principal investigator Bart Laws by email:

**[michael\\_barton\\_laws@brown.edu](mailto:michael_barton_laws@brown.edu)**

Or by phone: 401-863-6977

Leave a message with your contact information, and someone will get back to you soon.
