Next Quarterly Breakfast of Champions, May 10, 7:30-9am  
Planned Focus on improving clinical team work life / reducing physician burnout

## **Discussion questions: Social Determinants of Health**

- 1) How are you screening for SDoH and getting information to the clinical team?
- 2) What problems are there with the screening process and what types of problems are patients facing?
- 3) How are you responding to patient needs that have been identified?

## **Discussion questions: Primary Care / Specialist Engagement**

- 1) What drives your referral network/patterns?
- 2) Who decides who the patient is going to see / how do patients actually get scheduled (e.g. front desk, other)?
- 3) Are there clear expectations with specialist about clinical questions and how to coordinate care (expected number of visits, etc.)?
