# Practices' Plans for back to school and sick visits?

# Pediatric Relief Fund

---

- ❑ Led by the Governor, RI Department of Health, and other state agencies.
- ❑ 55 Practices applied and received Pediatric Relief Fund Payments  
*“pediatric providers will take targeted actions to ensure patients are caught up on immunizations.”*
- ❑ **2<sup>nd</sup> Medicaid Pediatric Primary Care Rate Supplement Program - applications were due Sept. 10**
  - will provide monthly payments to pediatric primary care providers based on the number of RI Medicaid-covered children served by the practice, and
  - awarded upon demonstration of performance improvement on a standardized measure of primary care access.
  - program guidance is [available here](#).

# Pediatric Relief Fund

## Immunization Performance thru 9/1/2020

### Preventive Healthcare Measures - Rhode Island

Source: RIDOH, Center for Health Data and Analysis, KIDSNET

Note: Includes children who are patients of a Rhode Island primary care provider, 2019 dates include children 1 year older

Kindergarten measure: % of children eligible to enter K on 8/31/2020 meeting K immunization requirements, DOBs: 9/1/2014 – 8/31/2015

MMR measure: % of children eligible to enter K on 8/31/2020 having two doses of MMR immunization, DOBs: 9/1/2014 – 8/31/2015

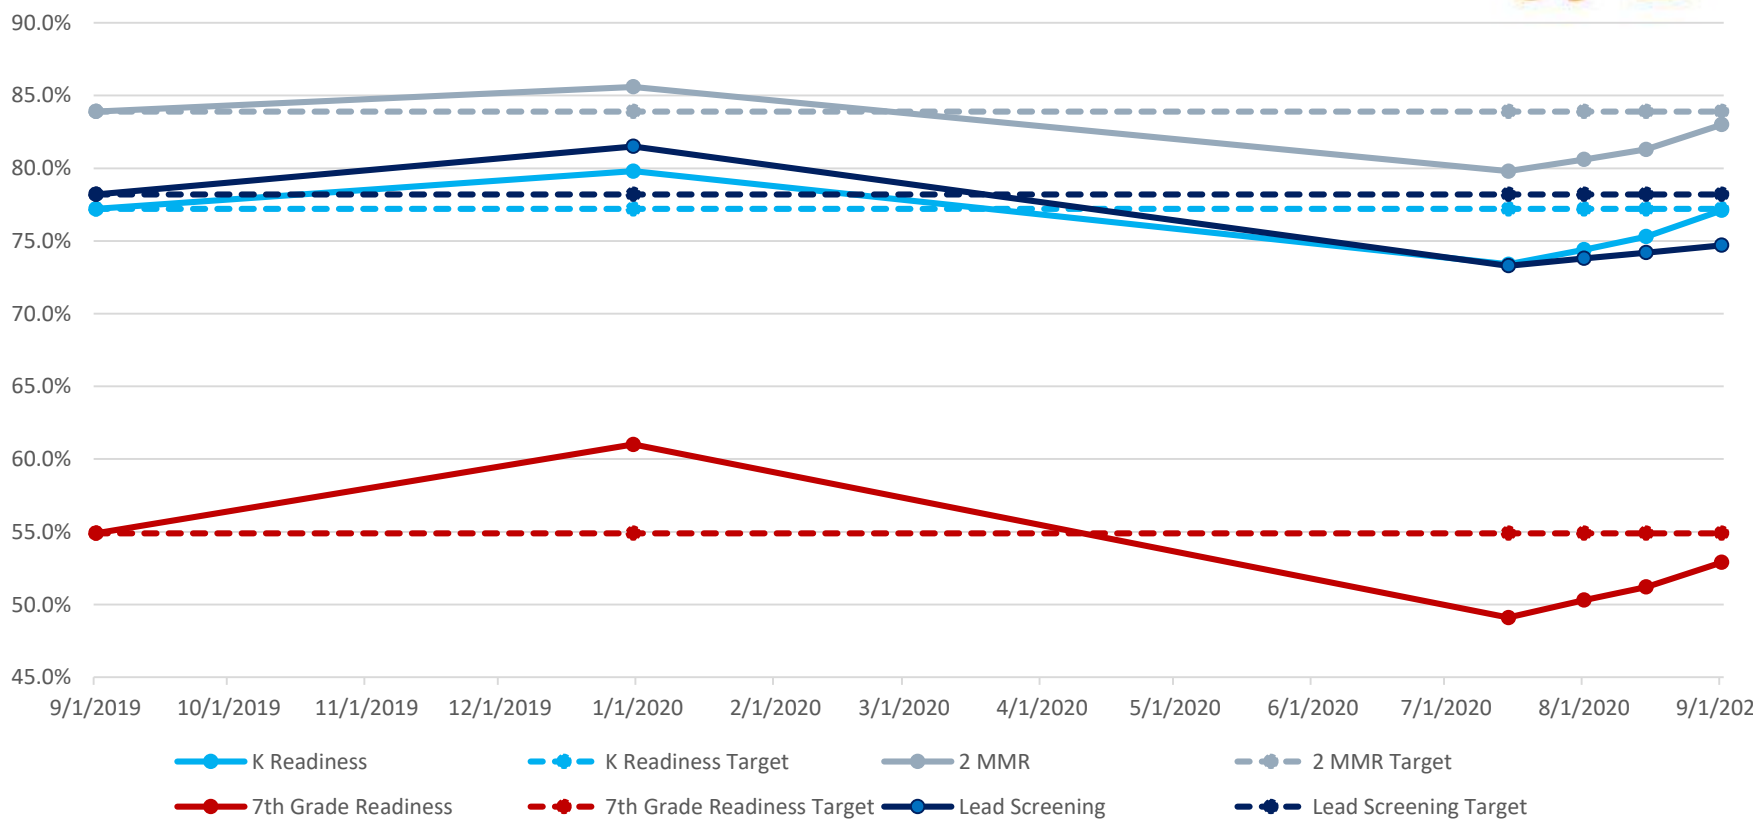

Seventh grade measure: % of children likely to enter 7th grade on 8/31/2020 meeting 7th grade immunization requirements, DOBs: 9/1/2007 – 8/31/2008

Lead Screening measure: % of children between 12 months and 24 months of age as of December 31, 2019 with at least one lead screen, DOBs: 1/1/2018 - 12/31/2018

# Pediatric Relief Fund

## Immunization Performance thru 9/1/2020

# Pediatric Advisory Board Update

---

- Pediatric Provider Relief Funds
- Pediatric Primary Care Rate Supplement
- Back to School COVID isolation and testing
- Pediatric Mental Health
- Pediatric Flu vaccinations

# Program Update

## Care Delivery Design

---

Goal: To further develop the capabilities of primary care practices in RI to implement care delivery models that maximize success in comprehensive primary care capitation (CPCC) and Total Cost of Care risk (TCOC).

### Structure:

- CTC – project oversight and management
- Subject Matter Experts – Freedman Health Care (FHC)
- Oversight – OHIC/EOHHS Medicaid and Planning/Steering Committee of CSC

# Program Update

# Care Delivery Design

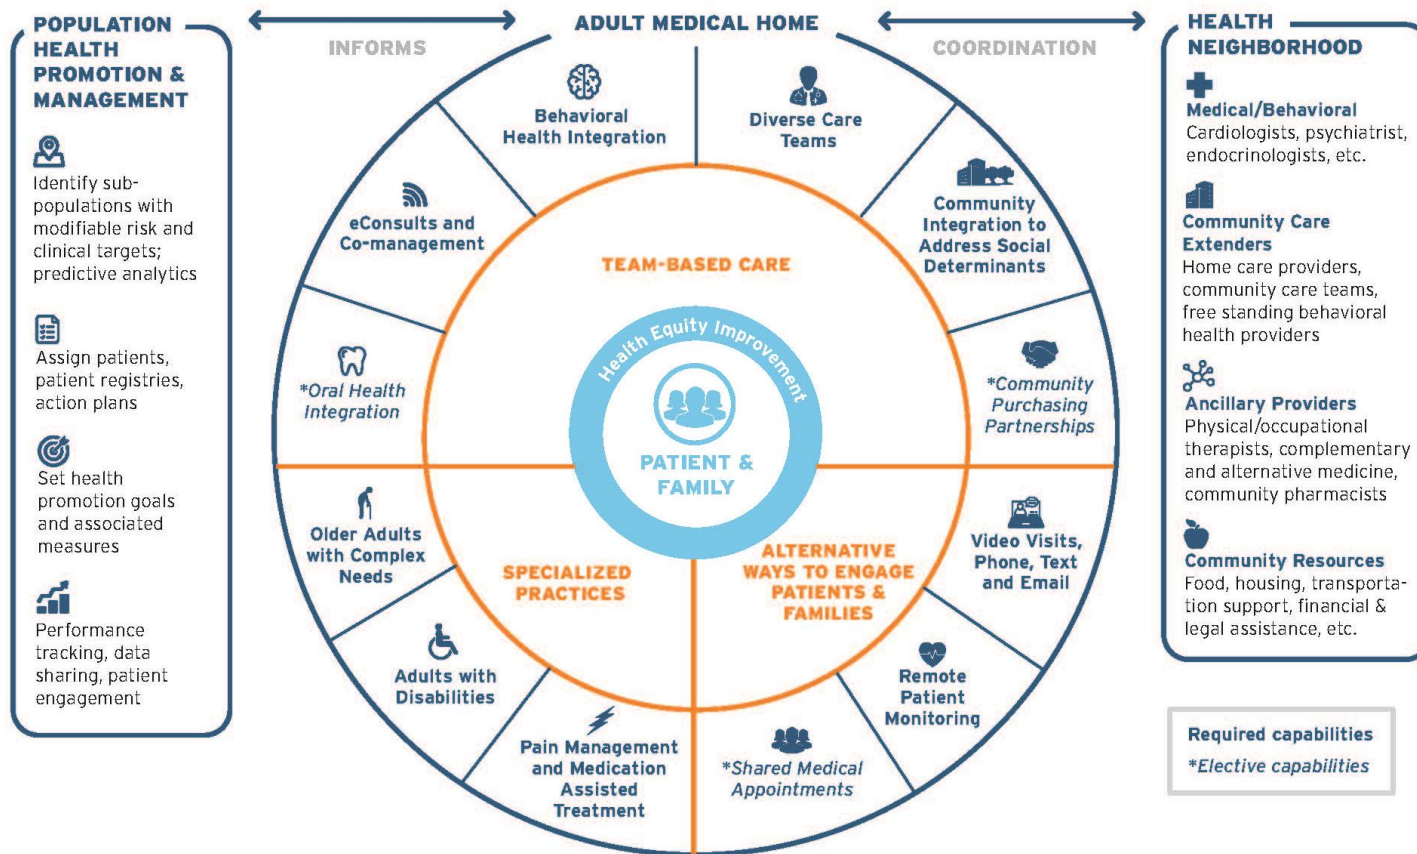

---

## Success Factors

- Patient and family focused
- Expanded use of advanced clinical teams and use of technology
- Leverage statewide infrastructure supports through including the Health Information Exchange, quality reporting, and a social needs platform.
- Integrated behavioral health in person and/or virtual supported through System of Care
- A patient and community-based population health approach that recognizes the health effects of racism, poverty, and other factors on health and equity.
- A population health approach that connects patients and families with social needs to effective community supports through strong community-clinical linkages

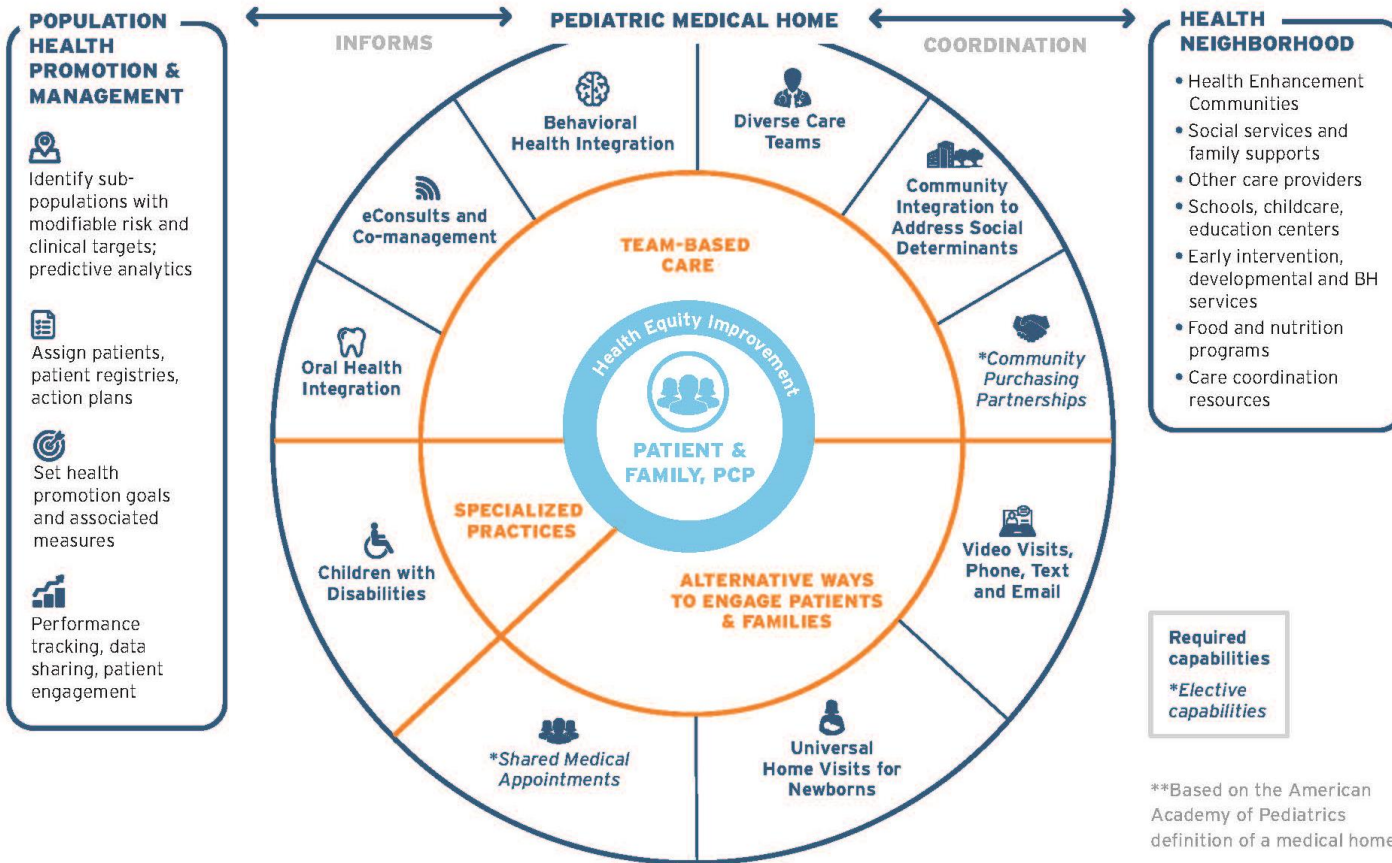

## ADULT PRIMARY CARE MODERNIZATION CARE DELIVERY CAPABILITIES

Practices participating in PCM will develop care delivery capabilities that aim to make care more accessible, convenient and responsive to diverse patients' needs while improving health equity.

## PEDIATRICS PRIMARY CARE MODERNIZATION CARE DELIVERY CAPABILITIES

Pediatric practices participating in PCM will develop care delivery capabilities that aim to make care more accessible, continuous, comprehensive, family-centered, coordinated, compassionate, and culturally effective.\*\*

# Program Update Telehealth

**The goal** of gathering the telehealth practice/patient needs assessment information is to assist us with:

- Designing and offering a 6-month educational webinar series on telehealth that will address the specific needs of RI primary care practices;
- Designing a 12 month learning collaborative for primary care practices that are interested in using telehealth to assist patients with managing chronic health conditions;
- Providing practices with opportunity to obtain patient information that they can use to improve patient telehealth experience;
- Helping to inform RI health care policy on primary care practice/patient telehealth needs.

Timeline	
Key Area	Date
Practice returns signed Participative Agreement and W-9	September 4, 2020
Practice Survey - completion date	September 22,2020
Patient Surveys - completion date	September 25,2020
Payment to practices	By end of September
Telehealth Webinar Series – 6 months, once a month sessions	Start Webinar Series by end of Oct. 2020

Reminder: If you haven't signed your agreement or handed in your w9's, please do so.

# Pharmacy Quality Improvement Goals

---

Practices **select** and **implement** a data driven **medication management performance improvement action plan** to improve the safe, effective and efficient medication management of older adults a with support from pharmacy practice facilitation peer learning opportunities and applied team-based performance improvement efforts;

- **Improve provider and practice team confidence and skills** in implementing evidence-based patient engagement and tools for optimizing medication use;
- **Enhance pharmacy scope and standardization of practice** through use of collaborative practice agreements, as applicable to the practice selected area of focus;
- **Demonstrate the benefit of a pharmacy led quality improvement** initiative.

*Thank you to UnitedHealthcare  
for providing the financial support for this project*

# Program Update

## Pharmacy Quality Improvement

---

### *Practices and Area of Focus*

- **Anchor Medical** (multi-site): Reduce Benzodiazepine
- **Brown Medicine – Warwick**: Provide patients with sustainable alternative for pain management
- **Care New England Group – Pawtucket**: Improve Adherence to controller inhaler
- **Coastal Medical**: Reduce Benzodiazepine use below state average
- **Medical Associates of RI (MARI)** : Improve Blood pressure control/adherence to hypertension medications
- **Providence Community Health Centers**: Improve medication adherence to anti-depression medications
- **University Internal Medicine**: Reduce use of high risk medications
