

ADVANCING INTEGRATED HEALTHCARE

Update on Clinical Strategy Committee Projects

Care Transformation Collaborative of R.I.

CLINICAL STRATEGY COMMITTEE

PANO YERACARIS, MD, MPH, CHIEF CLINICAL STRATEGIST

AUG 21, 2020

New Projects Underway

- Pediatric Immunization Improvement Project – build on BCBSRI funded project
- Telemedicine Collaborative – build on UHC funded project
- Expanded Health Equity Challenge – RIDOH/WE in the World
- **Care Delivery Design to Maximize Performance under Comprehensive Primary Care Capitation and Total Cost of Care Risk**

Proposed Care Delivery Work Stream – Request Planning Assistance

- Confirm core components of care delivery model
- special attention for integrated pediatric care.
- Assess evolving Best Practices
- Develop and APPLY practice and SOC self assessment to identify delivery system design opportunities
- Incorporate findings/information from Telemedicine, Integrated BH, Pharmacy QI project, and other collaboratives.
- Recommend common standards to consider in CPCC.

Care Delivery Design

What clinical delivery design elements are important?

What would it take to fully engage?
