❖ Providence Community Health Center - Capitol Hill	❖ Tri-County Community Action Agency - Johnston
❖ Providence Community Health Center - Central	❖ Tri-County Community Action Agency - North Providence
❖ Providence Community Health Center - Chafee	

Why PCMH KIDS Counts?

PCMH-Kids is a multi-payer, multi-provider primary care payment and delivery system reform initiative focused on the unique needs of children and families.

With this expansion:

- comprised of 37 practices
- covering over 110,000 lives
- including 260 pediatricians and trainees
- representing more than 80% of the state's pediatric Medicaid population

This pediatric learning network transforms traditional practices into **team-based, data-driven, high quality, value based family-centered medical homes**

PCMH-Kids Practices have achieved the following successes

- ✓ In its first year, all 9 initial practices achieved NCQA patient centered medical home recognition;
- ✓ Improved developmental screening of all children age 9-30 months from a baseline of 41% screened to 85.9% screened which is fundamental to the Governor's third grade reading readiness initiative;
- ✓ Improved obesity screening and counseling from a baseline of 55% to 85.8%;
- ✓ Developed and implemented a pediatric specific high-risk framework to identify children and families that would benefit from care coordination services;
- ✓ Reduced Emergency Department usage by 2.5% compared with non-PCMH practices;
- ✓ Achieved national recognition from AAP for PCMH Kids Co-Chairs (Dr. Flanagan and Dr. Lange) receiving the Calvin C.J. Sia Community Pediatrics Medical Home Leadership award at the November 2018 annual meeting.

Pediatric Learning Networks

Improving Integrated Behavioral Health Care for Children & Families

Integrated Behavioral Health Services into Pediatric Primary Care through:

- ❖ ADHD screening, diagnosis and treatment plans;
- ❖ Maternal post-partum depression screening : baseline of 22% to 87% and implemented referrals protocols for intervention.;
- ❖ Screening, Brief Intervention, Referral, and Treatment (SBIRT) in the adolescents 75 providers, with a total pediatric population of ~34,000, enrolled in the learning collaborative.

PCMH Kids: Impacting Payment and Policy

Infrastructure and sustainability support for:

- Population health approach to care
- Care coordination for children and families at high risk
- Becoming a pediatric learning community

Informing Policy and Practice:

- Rhode Island 1st 1000 Days Campaign
- Connecting with KIDS NET and Home Visiting Program
- Integrated Behavioral Health
