RI's Statewide Health Information Technology Strategic Roadmap and Implementation Plan

2019 CTC-RI Annual Conference

October 24th 2019

Amy Zimmerman, MPH - State HIT Coordinator

Melissa Lauer, MPA - HIT Specialist

RI Executive Office of Health and Human Services

EXECUTIVE OFFICE OF
HEALTH & HUMAN SERVICES
STATE OF RHODE ISLAND

Overview

1. Goal of the Statewide Health Information Technology Strategic Roadmap and Plan

2. Process for Developing Roadmap and Plan

3. Solicit Your Feedback

Goals

- Articulate RI's HIT priorities for next 2-3 years, help guide the state's HIT investments for maximal impact

- Align efforts across state government and private sector

- Identify opportunities where mutual benefit, interest and commitment exists for developing shared services across state government and the private sector

- Identify policy levers and legislative needs

- Create strong HIT governance

- Address sustainability

Project Components

EOHHS contracted with Briljent , LLC to assist with development of Roadmap and Plan by:

- Assessing current HIT activities and environment in RI

- Stakeholder Assessment

- Identifying the Gaps (Gap Analysis)

- Developing the HIT Strategic Roadmap

- Create an Implementation Plan

Stakeholder Engagement

- Stakeholder Assessment to identify:

    - Which HIT initiatives are beneficial

    - What additional infrastructure is needed

    - What infrastructure needs to change

    - Current enablers and barriers

    - Ideas related to governance and sustainability

- After the assessment is completed, stakeholders will continue to be engaged through the RIDOH HIT Advisory Committee

- Dept. of Information Technology

- CommerceRI

Questions and Discussion

The following questions focus in on areas where we would like to go deeper with this audience based on all of our stakeholder assessment so far.

Questions and Discussion

What are your biggest needs around sharing patient information with external entities?

Questions and Discussion

What types of information sharing should
be prioritized and between whom?

Questions and Discussion

What are the biggest enablers and barriers
to information sharing?

Questions and Discussion

Do you use CurrentCare or other services from RIQI, such as the Care Management Dashboards or

Know My Health (advanced directives, SBIRT)?

What has been your experience?

Questions and Discussion

Have you been engaged with any previous or current statewide health IT initiatives (such as the Quality Reporting System Workgroup, Provider Directory, etc...)?

What has been your experience?

Questions and Discussion

Is there a need for statewide health IT governance or statewide health IT coordinated planning?

Questions and Discussion

How should decisions about State health IT investments be made?

Questions and Discussion

What is the most important thing the state should keep in mind while developing the statewide HIT strategic roadmap?
